Lesson: Comparative and Superlative Adjectives

Comparative Adjectives

Comparative adjectives are used to compare differences between two objects they describe. They are used in sentences where there are two nouns are compared, often with the word “than”.

If it is clear from context, the second item of comparison can be omitted (see Example 3)

Structure: Noun (Subject) + Verb + Comparative adjective + *than* + noun (Object)

Example 1: “Ethan eats faster than Annie.”

Ethan	eats	faster	than	Annie.
Subject	Verb	Comparative Adjective	<i>than</i>	object.

Example 2: “Yoda is older than all other Jedi”

Yoda	is	older	than	All other Jedi
Subject	verb	comparative Adjective	than	(adjective) object

Example 3: “Qui Gon and Obi Wan are both Jedi, but Seth likes Obi Wan better”

Superlative Adjectives

Superlative adjectives are used to describe an object at the upper or lower limit of a quality. They are used in sentences where a subject is compared to a group of objects

Again, if it is clear from context, the group that is being compared can be omitted (see example)

Structure: Noun (subject) + verb + the + superlative adjective + noun (object)

Example 1: “Boss Nass is the biggest gungan on planet Naboo”

Boss Nass	is	the biggest	gungan	on	planet Naboo
Subject	verb	superlative adjective	object		

Example 2: “This is the fastest podracer I have ever seen!”
